" The job was to remove an old leaking shower tray, walls tiles, replace the floor, fit a new shower tray and retile around the new tray. I was very happy with the work done, which was both to time and to budget. The standard was high, with (nearly two months on) no areas for concern".
(Mr. James Gibb, North London)

"OID were very impressive from the outset, when they came to assess work needed at my flat in Central London . They updated the entire flat, re-painting, and refurbishing the kitchen and bathroom. They were able to accommodate my schedule which changed at the last moment and they turned round the work in a remarkably short space of time and it did not run over. Ovidiu was extremely helpful in getting everything together and his crew were hard workers and very polite. They know their stuff and are very thorough. I have no hesitation in recommending OID and would certainly hire them again."
(Miss Cotterill - London EC1)

"OID Building Services recently completed the installation of an ensuite shower room to my property. The quotation was comprehensive and followed an on-site visit where my needs and requirements were discussed in full. The team completing the works were very professional and courteous and I could trust that everything was in hand whilst I was at work during the day. I'm extremely happy with the finished result and would not hesitate in using OID Building Services again in the future. Many thanks!

" We recently undertook a refurbishment and updating of our flat at 42 Chapman Square with the help of O.I.D. Building Services. The scope of works included a new bathroom suite, painting & decorating and updating certain elements of the kitchen. We were supplied with a detailed estimate for the project, an agreed timescale, and a prompt start date. During the works the men were on time, hard working, and polite. The final project was completed on time and within the estimate of works. The builders were clean and tidy throughout and were also considerate to our neighbours in the development. We would have no hesitation in recommending O.I.D. Building Services to future clients and we fully intend on using them again for future projects. Finally we would like to thank them for all the hard work throughout. With our best wishes,"
